

***How to connect EtherCore mainnet with Metamask**

1. Unlock your Metamask wallet
2. Select network tab and click Custom RPC

3. Add the following value to config

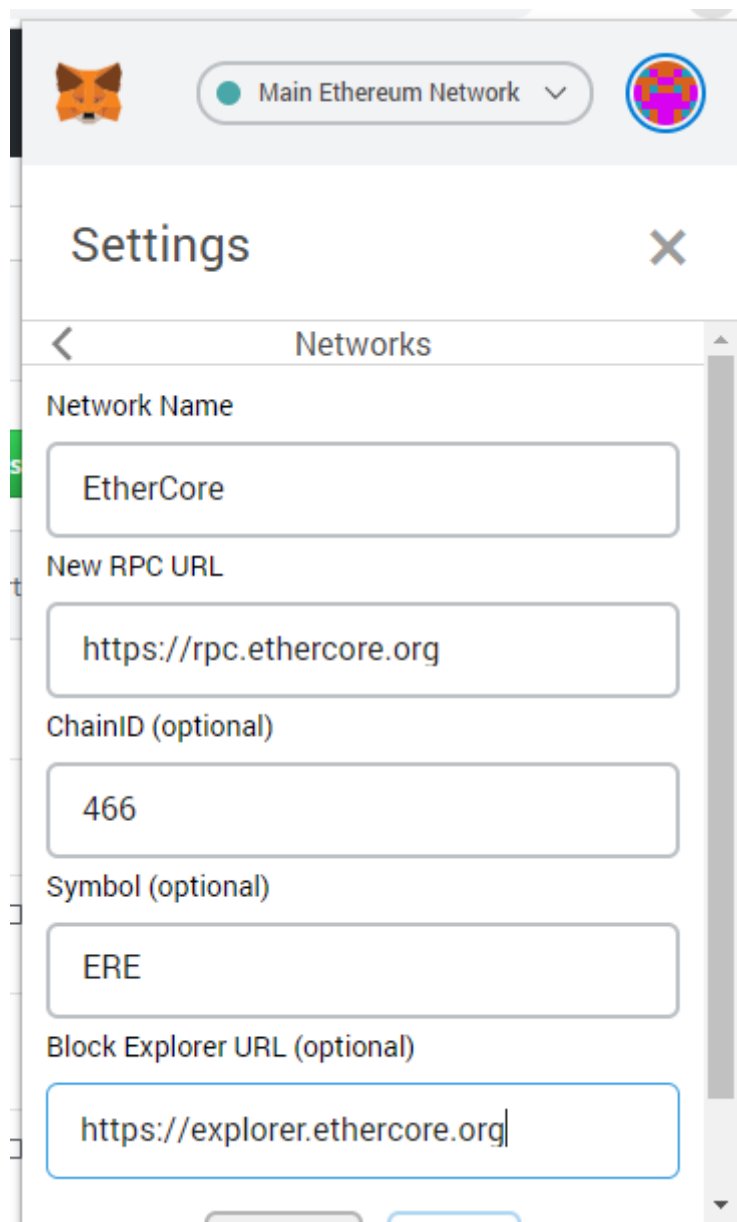

Network Name: EtherCore

New RPC URL: <https://rpc.ethercore.org>

ChainID: 466

Symbol: ERE

Block Explorer URL: <https://explorer.ethercore.org>

The screenshot shows a mobile application interface with a 'Settings' dialog open. At the top of the app, there is a fox icon, a dropdown menu set to 'Main Ethereum Network', and a globe icon. The 'Settings' dialog has a title bar with 'Settings' and a close button. Below the title bar is a 'Networks' section with a back arrow. The settings are as follows:

- Network Name:** EtherCore
- New RPC URL:** <https://rpc.ethercore.org>
- ChainID (optional):** 466
- Symbol (optional):** ERE
- Block Explorer URL (optional):** <https://explorer.ethercore.org>

And then click Save button

Next time you can switch network between Ethereum mainnet and EtherCore mainnet
