

*How to generate EtherCore Wallet and obtain EtherCore wallet address

1. Access <https://wallet.ethercore.io/> and enter a new password for your wallet

EtherCore Wallet

wallet.ethercore.io

EtherCoreWallet 1. Enter <https://wallet.ethercore.io/>

New Wallet Send Ether & Tokens Send Offline Contracts Check TX Status View Wallet Info Help

Create New Wallet

2. Enter a new password for your new wallet and backup

Enter a password

Do NOT forget to save this!

Create New Wallet

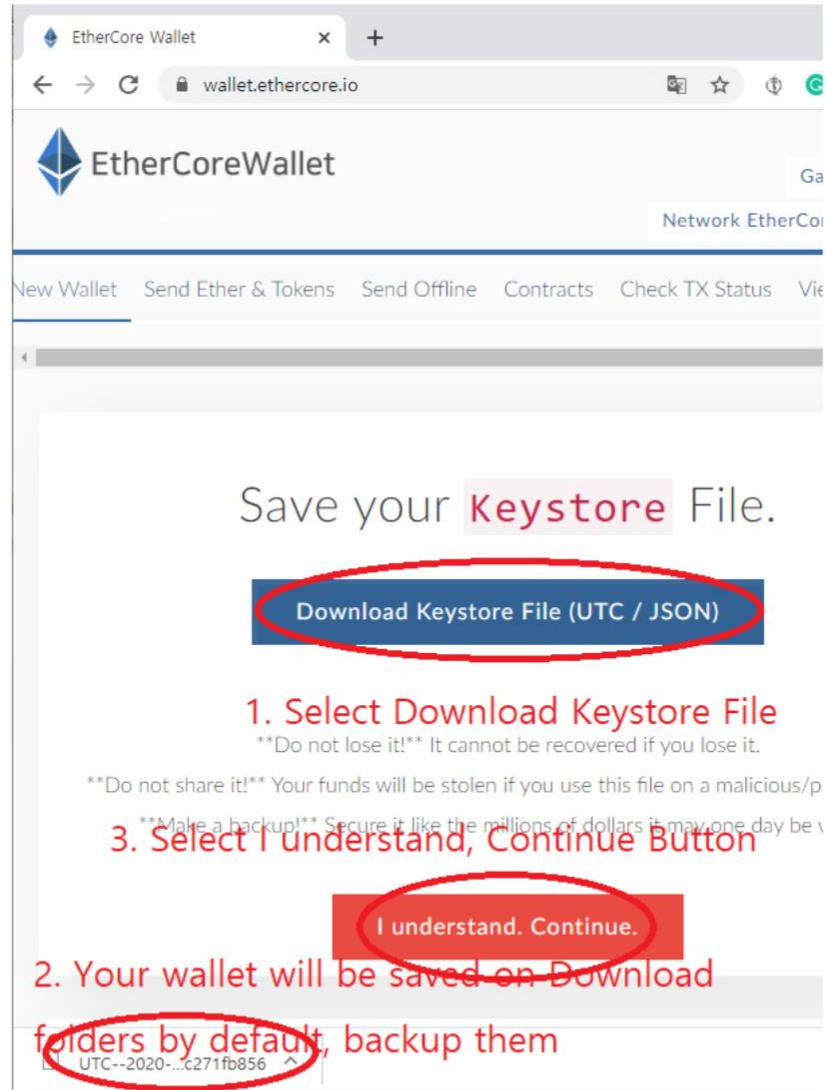

3. Select Create New Wallet button

This password encrypts your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet.

[How to Create a Wallet](#) • [Getting Started](#)

2. Select Download Keystore File, backup your downloaded wallet file somewhere, and then Select I understand, Continue Button

3. Copy-paste your private key, select print paper wallet, and select Save Your Address button

Save Your **Private Key**.

Print Paper Wallet

****Do not lose it!**** It cannot be recovered if you lose it.

****Do not share it!**** Your funds will be stolen if you use this file on a malicious/phishing site.

****Make a backup!**** Secure it like the millions of dollars it may one day be worth.

Save Your Address. →

4. Select Private Key, paste your private key, and then click Unlock button

Unlock your wallet to see your address

Your Address can also be known as your **Account #** or your **Public Key**. It is what you share with people so they can send you Ether or Tokens. Find address icon. Make sure it matches your paper wallet & whenever you enter your address somewhere.

How would you like to access your wallet?

- ☐ MetaMask / Mist
- ☐ Ledger Wallet
- ☐ TREZOR
- ☐ Keystore / JSON File
- ☐ Mnemonic Phrase
- ☒ Private Key

Paste Your Private Key

✔ This is a recommended way to access your wallet.

Always backup your private keys and make sure they are not compromised to anyone. No keys, not your coins. Alternatively, please consider:

- MetaMask or A Hardware Wallet or Running MEW Offline & Locally
