

*How to generate EtherCore Wallet and obtain EtherCore wallet address

1. Access <https://wallet.ethercore.org/> and enter a new password for your wallet

EtherCore Wallet

wallet.ethercore.org

EtherCoreWallet1. Enter https://wallet.ethercore.org

New Wallet Send Ether & Tokens Send Offline Contracts Check TX Status View Wallet Info Help

Create New Wallet

2. Enter a new password for your new wallet and backup

Enter a password

Do NOT forget to save this!

Create New Wallet

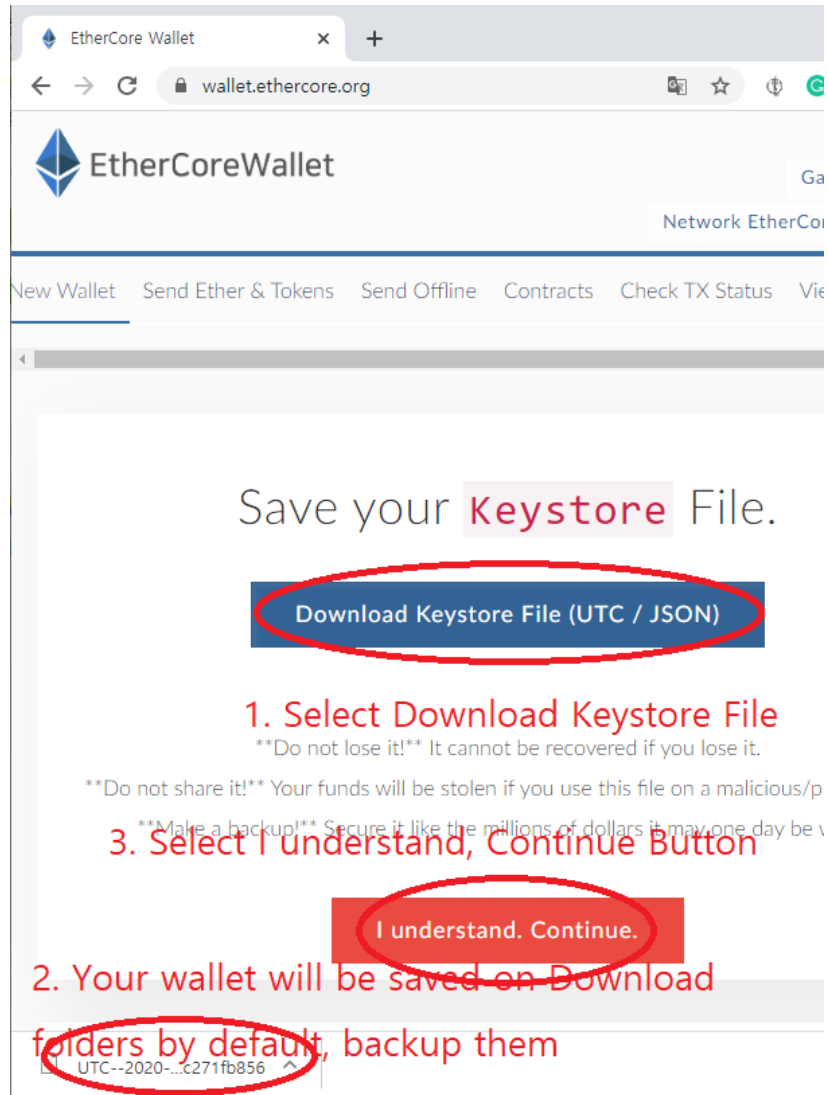

3. Select Create New Wallet button

This password *encrypts* your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet.

[How to Create a Wallet](#) • [Getting Started](#)

2. Select Download Keystore File, backup your downloaded wallet file somewhere, and then Select I understand, Continue Button

3. Copy-paste your private key, select print paper wallet, and select Save Your Address button

Save Your **Private Key**.

Print Paper Wallet

****Do not lose it!**** It cannot be recovered if you lose it.

****Do not share it!**** Your funds will be stolen if you use this file on a malicious/phishing site.

****Make a backup!**** Secure it like the millions of dollars it may one day be worth.

Save Your Address. →

4. Select Private Key, paste your private key, and then click Unlock button

Unlock your wallet to see your address

Your Address can also be known as your **Account #** or your **Public Key**. It is what you share with people so they can send you Ether or Tokens. Find address icon. Make sure it matches your paper wallet & whenever you enter your address somewhere.

How would you like to access your wallet?

- ☐ MetaMask / Mist
- ☐ Ledger Wallet
- ☐ TREZOR
- ☐ Keystore / JSON File
- ☐ Mnemonic Phrase
- ☒ Private Key

Paste Your Private Key

✔ This is a recommended way to access your wallet.

Always backup your private keys and make sure they are not compromised to anyone. No keys, not your coins. Alternatively, please consider:

- MetaMask or A Hardware Wallet or Running MEW Offline & Locally
- Learning How to Protect Yourself and Your Funds

Please double-check the URL & SSL cert. It should say <https://wallet.ethercore.org> in URL bar.

3. Select Unlock Button

Unlock

5. You can see your public wallet address, also click ERE (explorer.ethercore.org) to see your address history

The screenshot displays the EtherCore wallet interface. At the top, a text box contains the public address: `fe5a35fbf76bf6be0a4785df651b8d0de6a64c44f3041b7cba80b712976d867d`. Below it is an "Unlock" button. A red annotation states: "This is your wallet address, it can be used for mining and receiving coins from exchange". The main section shows the "Your Address" as `0x43af39D2a01619246640b79f3849B512Cbaf3B34`, which is circled in red. Below this is the "Private Key (unencrypted)" field, represented by a series of dots and an eye icon. A "Print Paper Wallet" button is also present. To the right, the "Account Address" is shown as `0x43af39D2a01619246640b79f3849B512Cbaf3B34`. Below this, the "Transaction History" section shows a link to "ERE (explorer.ethercore.org)", which is also circled in red. A red annotation points to this link: "Click to see address history from block explorer". At the bottom, there are sections for "Your Address" and "Private Key (unencrypted)" with dashed lines. A green sidebar on the right contains links to "Learn more about protecting your funds.", "Ledger", and "TREZOR".
